

**The 15th Annual Meeting of Asian
Fisheries Acoustics Society, AFAS 2022**

**THE INTERNATIONAL CONFERENCE ON
UNDERWATER ACOUSTIC TECHNOLOGY
AND EDUCATION FOR SUSTAINABLE
FISHERIES IN ASIA**

BUSAN, KOREA

NOVEMBER 14-16, 2022

Hosted by

Pukyong National University

THEME & TOPICS

Since its foundation in Dalian, China in 2007, the Asian Fisheries Acoustics Society (AFAS) has successfully organized 14th annual meetings under the umbrella name of “The International Conference on Underwater Acoustic Technology and Education for Sustainable Fisheries in Asia”. These conferences have effectively promoted the dissemination and development of fisheries acoustic in Asia. The 14th annual conference of AFAS was held in Bogor, Indonesia from 1 to 2 November 2021. Throughout the conferences so far, the main theme has been “to contribute and exchange the knowledge and experience on marine science and

technology especially fisheries acoustics with Asian Scientists”. The upcoming 15th annual conference of AFAS will be held in Busan, Korea from 14 to 16 November 2022. Both oral and poster presentations are welcome and deemed to inspire further discussions on the four special topics. Keynote speakers will be invited to give presentations on “Fisheries acoustic science in Pandemic Era of their countries”. Scientists, researchers, and manufacturers in the field of fisheries acoustics as well as other fisheries research areas are welcome. The traditional four major topics about the four study groups of AFAS will of course still be the main topics of the 15th annual meeting.

STEERING COMMITTEE

Prof. Hyeon-Ok SHIN (Chair)

ABOUT BUSAN

Busan, a bustling city of approximately 3.4 million residents, is located on the southeastern tip of the Korean peninsula. The size of Busan is 770.2 km² which is 0.8% of the whole land of the Korean Peninsula. The natural environment of Busan is a perfect example of harmony between mountains, rivers, and the sea. Its geography includes a coastline with superb beaches and scenic cliffs, mountains that provide excellent hiking and extraordinary views, and hot springs scattered

throughout the city. Busan enjoys four distinct seasons and a temperate climate that never gets too hot or too cold.

Busan is the second largest city in Korea. Its deep harbor and gentle tides have allowed it to grow into the largest container handling port in the country and the fifth largest in the world. The city's natural endowments and rich history have resulted in Busan's increasing reputation as a world-class city of tourism and culture, and it is also becoming renowned as an international convention destination.
